# An investment in your future

One key to investing is choosing investments based on your age, your unique situation and your investing style.

## Do-it-myself investor

Your plan offers a range of investments that allows you to choose the mix of investments to fit your strategy.

## Help-me-do-it investor

You may want to simplify your approach by considering a single pre-diversified target date fund based on when you expect to retire. Generally, the asset allocation of a target date fund will gradually become more conservative as the target date nears. The date in the fund's name represents when you plan to start withdrawing money (generally assumed to be at age 65). The principal value of the fund is not guaranteed at any time, including at the time of the target date and/or withdrawal.
